

Supporting countries to generate data on SDGs

unicef 
for every child

Generating high-quality data for SDG monitoring and shaping government policies on children

A TECHNICAL SUPPORT SYSTEM BASED ON GOVERNMENT OWNERSHIP

All survey activities are carried out by National Statistical Offices with full government ownership and management.

UNICEF provides standard tools and technical support at every survey stage, for quality assurance.

WORKSHOPS

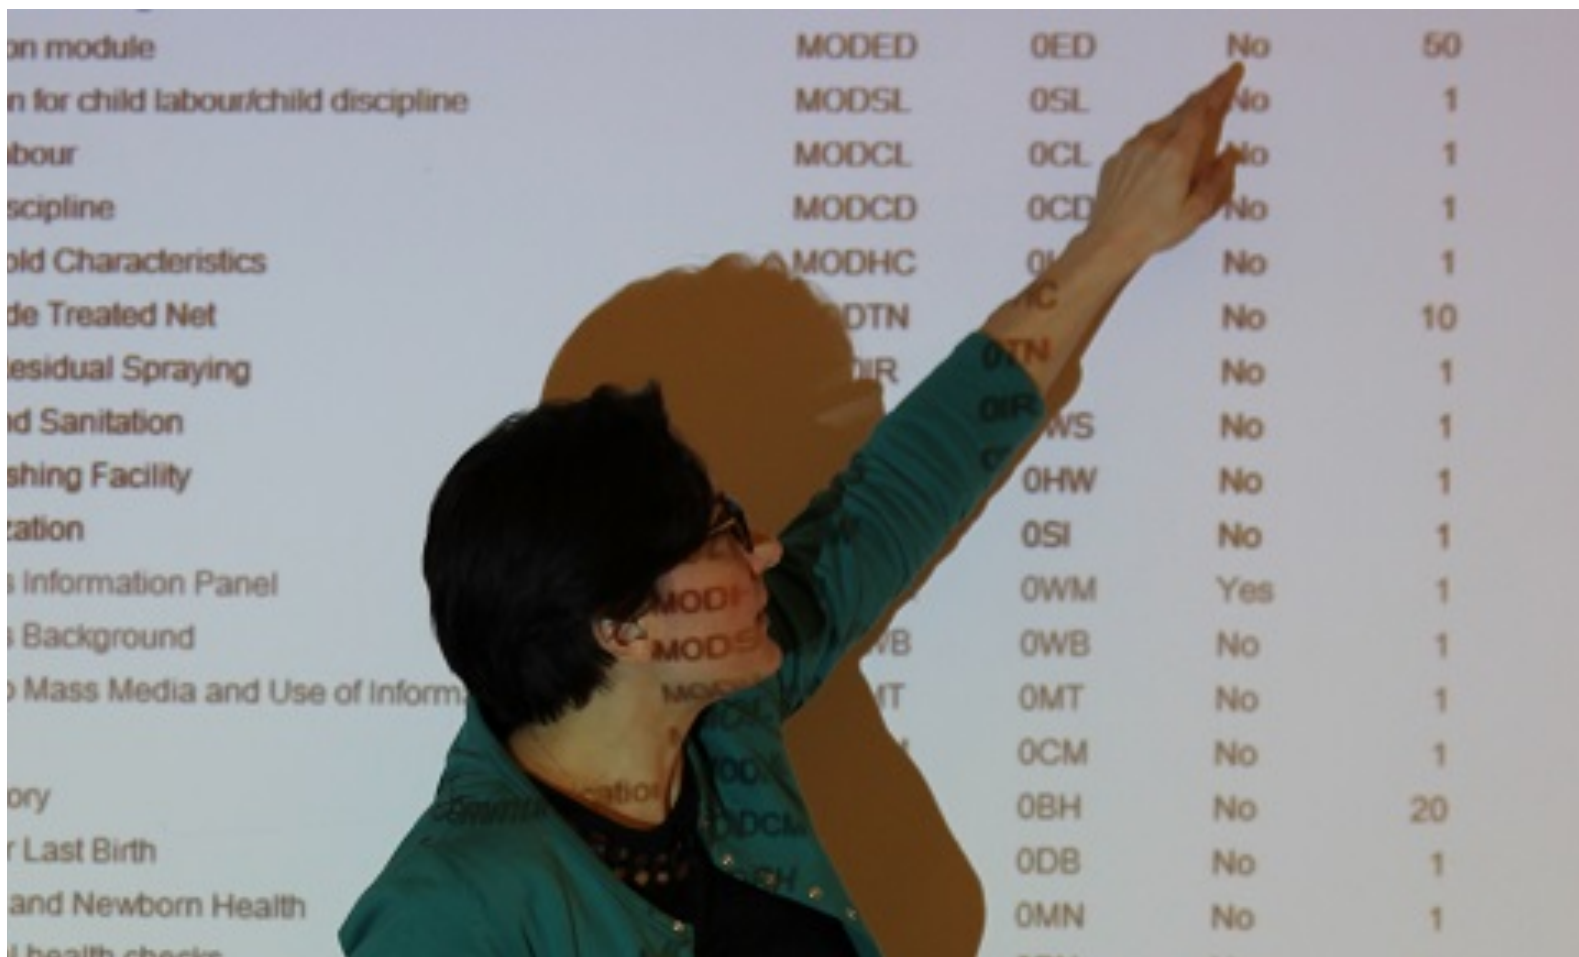

Survey teams carrying out a MICS participate in a series of workshops at various stages of the survey process

Themes

- Survey Design
- Data Processing
- Data Interpretation & Report Compilation
