CLIP4. Day / Month / Year: ____ / ____ / <u>2</u> <u>0</u> <u>2</u> ____	
CLIP5. Facility name and number: NAME NUMBER.....	

CHILD LISTING INTRODUCTION	CLI
<p><i>If CAPI is being used for data collection, then the names and relevant age groups of all randomly selected children and adolescents in this facility should already be loaded into CL2 and CL3 in the Child Listing. If paper data collection is being conducted, then the fieldwork team will need to transcribe the names and relevant age groups of all randomly selected children and adolescents into CL2 and CL3 in the Child Listing from the assignments provided by the supervisor. This should be done prior to visiting the facility. Once at the facility, read the introductory script below to the facility director or other appointed official of the facility.</i></p>	
<p>Hello, my name is (your name) and I am one of the interviewers working on a census to gather information about all residential care facilities in the country and the children who live in them. We are from (name of lead implementation agency). This facility was visited earlier by a data collection team and has now been randomly selected to participate in a follow-up survey to collect information about the health and well-being of children living in residential care facilities. We have randomly selected some children living in this facility and would like to interview their caregivers and social workers. We would also like to speak directly with children between the ages of 15 and 17 years. We would like to ask for your assistance in identifying the person who is most knowledgeable as well as the social worker for each of these randomly selected children.</p>	

CHILD LISTING				CL
CL1. Line number	CL2. Child's name	CL3. Child's age 1 UNDER 5 2 AGE 5-14 3 AGE 15-17	CL4. What is the name of the person in this facility who is most knowledgeable about this child?	CL5. What is the name of the social worker or assigned caseworker for this child?
